

PROJECT Overview

Modern Rockville, which adds capacity to roads, bridges and storm drains along nearly three miles of U.S. 36 between I-465 and Raceway Road in Marion County, enters its next phase on the path to improvement.

In this project area Modern Rockville will tackle: traffic congestion due to only four current travel lanes; crash conflict points with left-turning vehicles; poor drainage in shoulders; and lack of sidewalks for pedestrians.

PROPOSED SOLUTIONS

- Adds extra lanes
- Repairs outdated drainage
- Modifies medians
- Improves bridges
- Modernizes signals
- Pathways for pedestrians

GET INVOLVED

UNDERSTAND – View project documents at the Wayne branch of the Indianapolis Public Library or INDOT district offices at your leisure through July 21.

EXPLORE – For in-depth overview of the project, frequently asked questions and project key points visit modernrockville.com.

RESPOND – A 14-day comment period will be available immediately following the Public Hearing.
